

Media

Express Media Services, Inc. offers the highest quality Recordable media from Taiyo Yuden Inc., the leader in media manufacturing in today's high volume recordable environments. *Did you know Tadishi-Guro of Taiyo Yuden was the inventor of CD-R/DVD-Recordable media*, and it is certified for the highest recording speeds. Users need the assurance that their choice of media will provide high performance, compatibility, and long term data integrity. Taiyo Yuden's long history of development and manufacturing, combined with their zero tolerance for sub standard product, makes their media the best choice for your requirements...remember they invented it, and that's why we use it exclusively for duplication/print in our production facility.

Express Media Services offers Thermal Printable, Inkjet Printable, and Silver Lacquer media designed especially for the Microboards equipment lines, such as the **Rimage Everest Printer, Rimage Prism Printer, Print Factory, PF-1, PF-2, DX-1, DX-2**, and now shipping, the **GX-1**.

All media is available in bulk, or pre-printed for in-house duplication.

For the best recording results in any recordable environment, be sure to use superior CD-R/DVD-R media from Taiyo Yuden. Available from the industry leader,
Express Media Services, Inc.
